

WE BRING GREAT IDEAS TO LIFE

About us

3S DATA CLOUD founded in 2017 is a cloud services organisation focused on serving the mid-market and enterprise clients. We are a team of multicloud solutions professionals.

Our technical acumen with the world's leading technologies and multicloud environments — across applications, data and security — enables business to grow, increase efficiency and deliver the future. We focus on Managed services, Cloud Migration and Implementation of various value-added services on the cloud including Analytics and Cyber Security.

Our skills cut across various workloads E commerce, Analytics, IOT, Machine Learning, SAP, etc. Our business goal is providing global services on Cloud Engineering and Cloud Expert Line.

Statement

Mission

To create value for business by constantly innovating and implementing solutions while revolutionising how we engage with our customers, employees and partners.

Vision

We envision becoming a one stop solution for every cloud based requirement in multiple industries spread out through every domain.

Our Value

We lead with integrity, strive for excellence , are customer centric and embrace humility with our people as our priority.

OEM's Associated

Our Solutions & Services

- Cloud consulting
- Data Security and Compliance
- Devops
- Data Analytics
- Office 365
- Cloud Backup And Storage
- Tele Cloud
- IT Managed Services
- Migration Services
- Cost Optimisation
- Support
- SaaS Solutions.
- IaaS Solutions.
- PaaS Solutions

IMPLEMENTATION

IMPLEMENTATION

AUDIT

- ▶ Security Assessment
- ▶ Performance Analysis
- ▶ High Availability
- ▶ Logging And Alerts
- ▶ Backup Policies

COST OPTIMIZATION

- ▶ Right Sizing of VMs
- ▶ Consolidated Billing
- ▶ Resource Utilization
- ▶ RI Recommendations
- ▶ Snapshot AMI Cleanup

DATABASE SUPPORT

- ▶ Monitoring
- ▶ Tuning
- ▶ DB Backup & Archival
- ▶ DB Maintenance
- ▶ Security Audits

SECURITY

- ▶ Port Access
- ▶ DDoS Resilience
- ▶ WAF Implementation
- ▶ S3 Logs Monitoring
- ▶ CloudFront Monitoring

VAPT

- ▶ Vulnerability Assessment
- ▶ Penetration Testing
- ▶ Reports & Documentation
- ▶ Continuous Monitoring

POST IMPLEMENTATION

POST IMPLEMENTATION

DEVOPS AS A SERVICE

- ▶ Cloud Formation, Terraform
- ▶ Elastic Bean Stalk
- ▶ Jenkins Pipeline, Ansible
- ▶ Code Build & Deploy
- ▶ ELK, EFK, ISTIO

SECURITY AS A SERVICE

- ▶ Port Access
- ▶ DDoS Resilience
- ▶ WAF Implementation
- ▶ S3 Logs Monitoring
- ▶ CloudFront Monitoring

CONTINUOUS AUDIT

- ▶ Well-Architected framework
- ▶ Operational Exchange
- ▶ Security Compliance
- ▶ Performane Efficiency
- ▶ Backup Policies

NEXT-GEN MANAGED SERVICE

- ▶ Design / Automate
- ▶ DevOps & CI / CD
- ▶ Infra a s a code
- ▶ Security Compliance
- ▶ Cost optimization

WHY CHOOSE US?

Young & Energetic Team

Deep level Service &
Business Understanding

Ownership

Customer Obsession

Flexible & Innovative Team

Industry Expert

Cloud Monitoring Platform

24*7 Support

Cloud Certified
